Investor Services

Put your financial future in good hands. Ours.

Are you looking for ways to maximize your investments? Maybe you want to keep your money in one convenient location. At Emprise Bank, you'll have access to our entire range of investment products and to our experienced team of trust officers and investment specialists. Some of the services we offer include:

Trust & Money Management Services

With our Personalized Investment Management program, you can enjoy the same advantages as big investors, but for a cost less than the fees charged by the average mutual fund*. Our investment specialists choose individual securities to meet your unique financial needs.

Comprehensive investment choices include individual stocks and bonds, mutual funds, money market accounts, or any combinations thereof. We work with you one-on-one to develop an individually tailored program based on your personal goals, tolerance for risk, and timeline.

A fully managed investment account offers the benefits of active investing without the day-to-day hassles. We do the legwork and make sure you're kept informed every step of the way.

Horizon Account

With a Horizon account, our investment specialists work with you to establish an investment profile indicating which investment strategy is right for you, from conservative to aggressive. Emprise Bank will then provide you access to a portfolio of mutual funds selected especially for that strategy. A Horizon Account offers you a professionally managed pool of mutual funds comprised of some of the nation's top money managers.

Estate Planning

While Emprise offers initial estate planning consultations, we believe your interests are best served by the cooperative involvement of three trusted

professionals - your attorney, your accountant and a professional fiduciary or investment manager such as Emprise Bank. Working in concert with these professionals, we manage your investments in accordance with the provisions of your estate plan.

Trustee Services

A trust can help you build, manage, and protect your wealth. By naming Emprise Bank as your trustee, you receive quality trust administration by bonded, experienced professionals acting in accordance with your personal instructions. Utilizing our Trustee Services will also help you to relieve your family of the burden and discord that often comes with administering a trust. You can preserve family harmony and balance through the use of our objective, third-party trust administration.

Custodial Services

Think of us as your personal financial secretary. We can consolidate and organize your records for safekeeping while routinely monitoring them to ensure you receive all interest and dividend distributions due to you. Our service can also significantly reduce and simplify your recordkeeping for tax purposes.

Conservatorship

We can serve as financial managers for minor children or disabled people who are incapable of managing their own affairs. This program is administered under the strict guidance and supervision of the courts.

Now is the time to get started!

At Emprise, you get the best investment options with local administration of your money. Your investment advisor will help you build the right investment portfolio, and is never more than a local phone call or bank visit away!

Call us today at (316) 383-4422 or toll-free at (800) 201-7118 to schedule your initial consultation. Let's take a few moments to talk about your financial goals for the future and how we can help you achieve them.

Disclaimer: Trust and investments products offered by Emprise Bank are not FDIC insured, are not deposits, obligations of or guaranteed by Emprise Bank, and involve investment risk, including possible loss of principal amount invested.
